DETAILED ACTION

Status of Claims

1. This communication is responsive to RCE amendment filed February 22, 2006, where applicant cancelled claims 1-38 and added new claims 39-76.

Election/Restrictions

2. Newly submitted claims 39-76 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The original claims were drawn to ring computer networking which is classified in 709/251. Whereas the new claims are drawn to synchronizing between computers which is classified in 709/248.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 39-76 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

3. The reply filed on 2/22/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The amendment filed on 2/22/2006 canceled all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03).

The remaining claims are not readable on the elected invention because they are drawn to synchronizing between computers which is classified in 709/248. See 37 CFR 1.111.

Art Unit: 2157

The cancellation of original claims 1-38 cause the application to have no pending claims and therefore the amendment is considered as non-responsive.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
